CHECKLIST OF PAPERBOUND BOOKS ON AFRICA

(in print February 1964)

Compiled by

Paul Rosenblum

Reproduced by
African Studies Association

Compiled under the auspices of
The University of
the State of New York
State Education Department
Albany, New York

PREFACE

This checklist of paperbound books on Africa is inclusive rather than selective. It is based largely on the February, 1964 edition of Paperbound Books in Print (published by the R. R. Bowker Co.) although some titles scheduled for subsequent release are included. The checklist is, therefore, largely confined to American imprints or titles distributed by American publishers. A few clothbound books at "paperbound" prices are also included. The checklist is believed to be reasonably complete, but suggestions of omissions and other comments are welcomed and should be sent to the Foreign Area Materials Center at the address given in the final paragraph below.

Divisions of the list for the most part correspond to those in the previous list. Geographical coverage includes the whole of Africa, from Egypt and North Africa to the Republic of South Africa. A section giving addresses of publishers cited in the list is also included. Prices are given when available but are obviously subject to change.

The present compilation is one of four bibliographical guides to paperbound materials on non-European areas being prepared by the Office of Consultant in Foreign Area Studies, New York State Education Department. These bibliographies are part of a series of programs and activities designed to strengthen opportunities and resources for the study of Asia, Africa, Latin America, and Russia and East Europe in the schools, colleges, and universities in New York.

The state of New York is actively engaged in an endeavor to strengthen the study of areas of the world and cultural traditions heretofore neglected in American education. This endeavor ranges from faculty seminars in the academic disciplines to programs of independent reading and seminar discussion for key secondary school teachers and supervisors and includes an active concern with the development of library, museum, and other material resources for educational programs on Asia, Africa, Latin America, and the Soviet Union. Descriptive materials on these programs are available, and we are glad to receive inquiries from interested individuals who should address their queries to the Consultant in Foreign Area Studies, University of the State of New York, State Education Department, Albany, N. Y. 12201.

This checklist was prepared by Paul Rosenblum, a graduate student in African history at Columbia University. Edith Ehrman, Manager of the Foreign Area Materials Center, was responsible for editorial revision and publication. The African Studies Association is undertaking distribution of the checklist as a service to its members. Single additional copies are available on request to the Foreign Area Materials Center, University of the State of New York, State Education Department, 423 West 118th Street, New York, N. Y. 10027.

Ward Morehouse
Consultant in Foreign Area Studies
